LIBERAL DISCOUNT TO THE TRADE.

To Physicians and Druggists.

The following list of Fluid Extracts is offered to you as being standard and superior preparations, sixteen troy=ounces of the drug being represented fully in each pint of the Extract. NLM

Our entire establishment is under the immediate supervision and control of a "Graduate of the Philadelphia College of Pharmacy," thus guaranteeing scientific manipulation in all the departments.

The best materials only are used, and careful and personal supervision is given in all the processes of manufacture. Our Fluid Extracts are made by "cold percolation"; **NO HEAT BEING USED** all the volatile principles are retained in the Extracts, the result being, preparations that represent physically and therapeutically the properties of the crude drugs from which they are obtained.

The prices quoted include the bottle. The doses of the drug are indicated on the label, as well as directions for making Tinctures, Wines, Syrups, etc.

Our aim is to get the best product, from the best crude material in the best manner.

Physicians and Druggists wishing to get our goods through Wholesale Houses will please particularly specify our (J. A. S. & CO.) make to be sure of obtaining reliable articles; as many that are now made and sold are of inferior quality.

Hoping that our endeavors to make first-class preparations will meet with your favor, we remain

Respectfully, Your Friends,

POWDERED MEDICINAL EXTRACTS.

The attention of Physicians and Pharmacists is called to our Powdered Extracts, made from our Solid Extracts, that have been carefully dried at a low temperature, special precaution being taken with drugs having volatile principles, to prevent loss in medicinal activity.

The loss of water in drying is made up by the addition of sugar of milk, so that each grain of the powder represents one grain of the pilular extract, both in weight and therapeutic strength.

PRICE PER OUNCE, INCLUDING VIAL.

 Any of these Pills will be sent by mail on receipt of List Price, without charge for Postage.

To whom it may concern.

If you have a pill that has a local sale and reputation, why not allow us to estimate on 3000 or more, sugar-coated?

We think we can make them for you, including sugar-coating, giving you a handsome pill, for less money than you can compound them.

All recipes that may be entrusted to us, will be considered strictly private and confidential.

Respectfully, Your Friends,

J. A. SCHIEDT & CO.

MEDICINAL LOZENGES.

These handsome and accurate lozenges, made on our own premises, are not intended to compete with the cheap goods turned out by Confectioners. They are of pure material, containing neither glucose, grape-sugar, nor terra alba.

The “Bronchials” are especially adapted to boxing for Druggists' Retail sales, under the Druggist's own name, as we do not put them up by the dozen.

We send them in neat Glass Front, five pound boxes which make a good display on the Druggist's counter.

Lozenges of private formula cut to order in lots of not less than five pounds. Estimates cheerfully furnished.

DR. SOLOMON BROWN'S IMPERIAL LIQUID HAIR DYE.

This Dye gives to white, red or gray hair, the natural constituents of black or brown; consequently hair dyed with this has all the beauty of color and softness of natural black or brown, and holds its color without change. This Dye can be used in a few minutes—is as pleasant as any Cologne in odor, never injures the skin, contains no Lead, and is in fact the *best Hair Tonic in existence*.

The following are a few of many recommendations of this Dye:

Having been engaged a number of years in my profession, I can conscientiously state that I have used every popular dye in vogue. I have never found anything equal to Dr. Brown's Imperial Dye.

JACOB HALDT, Hair Dresser,
44 Arch St., and 14 Market St., Philadelphia.

Modern Discovery of the Age.—Dr. Solomon Brown's Imperial Hair Dye. Having used all the principal dyes now in use, I find upon a fair trial that none can equal Dr. Brown's Imperial Hair Dye for beauty of color and pleasantness.

LOUIS GUTEKUNST, Hair Dresser,
S. E. cor. 4th and New Sts., Philadelphia.

This certifies, that I have been engaged in dyeing hair for many years, and have used all the dyes in use, and have never found any equal to Dr. Solomon Brown's Imperial Hair Dye.

WM. L. THOMAS, Hair Dresser, No. 324½ South St.

We have been engaged in dyeing some time—have used all the dyes of reputation, but have found none equal in all important qualities to Dr. Brown's Imperial Hair Dye.

R. H. B. & WM. L. ST. THOMAS,
Walnut St., Philada.

We have been proprietors and manufacturers of the above Hair Dye for more than *twenty years*, and have sold it in considerable quantities, though we have never advertised it, other than a line in our Catalogue. We note it now more prominently, owing to the fact, that many parties who have been selling it, and not knowing where or by whom it is manufactured, order other and inferior dyes.

We guarantee every bottle to give entire satisfaction, and claim it to be superior to any preparation in the market.

PRICE, PER DOZ., \$3.00

CIRCULAR.

We would respectfully call the attention of Apothecaries and Physicians to our accompanying catalogue and prices of Medicinal preparations. It is our aim to produce none but reliable articles and at as low prices as they can be afforded.

Our **Fluid Extracts** are in all cases the standard strength as printed on the labels, and may be used for making tinctures, syrups, wines, infusions, &c., by using one fluid ounce where one troy ounce of the crude material is ordered, making up the preparation to the proper measure when finished.

Our **Sugar Coated Pills** are all made and coated in our own establishment, using the best materials only; they are all full weight as printed on the labels, and thinly coated with sugar; care being taken to have them as small as possible, to insure the full weight of the active ingredients.

To Physicians and Druggists who desire to get a reliable Pepsin at a reasonable price, we recommend and offer it at the following low figures:

LUSTIG'S SACCHARATED PEPSIN.

1 oz. Bottles.....	Each, \$.30
4 " "	" 1.00
½ lb. "	" 1.95
1 " "	" 3.75

(A Discount to the Trade.)

This Pepsin is precipitated from fresh, hog stomachs, as recommended by E. Scheffer, (see Am. Journal Pharmacy, Feb., 1872), each new lot being carefully assayed to assure its full digestive strength: namely, 10 grains, dissolved in a fluid ounce of acidulated water, digests 160 to 180 grains of coagulated albumen at 100° F. in 4 to 6 hours.

It is free from animal odor, taste and all impurities. Sent by mail at above prices.

We also offer

LIQUOR ACIDI PHOSPHORICI (without Iron).

LIQUOR ACIDI PHOSPHORICI COMP. (with Iron).

Each fluid drachm contains 3 grs. Phosphate Lime, 2 grs. Phos. Magnesia, 1½ grs. Phos. Potassa, and ½ gr. Phos. Iron, with free Phosphoric Acid made from Phosphorus. The above preparations are recommended by Dr. Wm. Pepper (see "Medical Times," Aug. 14th, 1880) to be used in place of the preparation known and advertised as "Acid Phosphatos,"—as a tonic to the nervous system and digestive organs.

Price, per pound bottle..... .75

With an experience of over **Twenty Years** in the manufacture of chemical and pharmaceutical preparations, we feel confident of giving satisfaction in the quality of our goods.

Orders by mail should be accompanied with Post Office Money Order for the amount, or instructions to collect on delivery by the Express Company.

Hoping to receive a share of your orders,

We are, yours, very truly,
